CHILDREN'S VOICES ACTIVITY SHEET

TIPS FOR ADULTS

The main role of the adult is to LISTEN and recognise that children are experts about their own lives.

If possible, work with the children in small groups to start a conversation about things that are important to them. Use this worksheet to record ideas.

You can either write/draw the suggestions on the page, or ask the children to do that themselves.

Older children may prefer to do this individually. You may need to ask younger children about their drawing and record their story.

Once you've collected the children's views, pass them on to the people who make decisions, e.g. local shire or council, school, club or organisation.

Tell the children how you want to share their ideas, and keep them involved in the process.

It would be great if you could let NAPCAN know about your project!
